

CHANGES TO THE SPECIFICATION

Please change the following paragraphs:

✓ At page 5, line 5

Fig. 1A to 1D

61 show a first perspective and also a front view of a first embodiment of a clamp in accordance with the invention in the closed and open conditions.

✓ At page 6, line 1,

62 Fig. 1A shows a first extruded length of clamp section. Lines 1 in the figure indicate that, for example, a multiplicity of clamps may be cut from the extrusion in the width prescribed by the distance between the lines or broken off at marked predetermined breaking points (also shown in Fig. 1D as solid lines) with it being possible, however, that the clamp has the entire width shown. For such an eventuality hole 2 is provided, by means of which the clamp may be hung on a hook.
